PALOMAT® GREENLINE COLD STORE

Fully automatic and operates in temperatures down to - 25 C°/ - 13 F°

Insert or remove the pallets using a hand pallet truck, electric stacker, or a forklift truck. PALOMAT® Greenline Cold Store detects the pallets via photo sensors after which they are automatically stacked or destacked one by one at floor level.

When selecting destacking, a stack of no more than 15 pallets will be inserted in the PALOMAT®, after which the pallets are fully automatic destacked one by one.

When selecting stacking, the pallets are inserted one by one, after which the pallets are fully

automatic stacked to no more than 15 pallets. The entire stack can subsequently be removed.

PALOMAT® Greenline Cold Store is only to be operated in automatic mode.

Manual mode is for service and maintenance only!

We do not recommend placing the PALOMAT® Greenline Cold Store close to a door or gate, as it may cause condensation on the grippers.

The PALOMAT® can handle all 4-way pallets.

Your benefits with PALOMAT®

- Space saving and a tidy workplace
- Optimised pallet flow
- Improved work environment
- Reduced pallet costs
- Increased efficiency
- No manual pallet handling
- Less absence due to illness

- Reduced time spent per pallet
- Fewer back injuries, jammed fingers, and feet
- Less truck driving
- LEAN– increased efficiency with less resources
- ”Plug and Play” solution

Models					Technical	Feature
Article no.	Machine dimensions L x W x H (mm)	Pallet size L x W x H (mm)	Lifting capacity (kg)	No. of pallets	Power source	Pallet handling in cold environments
152601*	1520x1340x955/2350	1200x800x144	500	15	220-240V AC, 50 Hz	Down to - 25 C°/ - 13 F°
152602*	1520x1540x955/2350	1200x1000x150	500	15	220-240V AC, 50 Hz	Down to - 25 C°/ - 13 F°

* Incl. safety frame for 15 pallets, 2x heaters and actuater grease for working i minus degrees.

Control: Siemens S7-1200
Actuator: Linak

Standard colours: RAL 3002 red, RAL 5002 blue, RAL 7032 grey and RAL 7035 grey
